also took Dr. Sage's Catarrh Remedy and began to feel better before I had finished the first bottle. My health has been improving ever since. I work all the time and do not have any more troubles with my lungs, and my womb trouble is almost gone."

ALL A MISTAKE.

But a Mighty Serious Fact

Just the Same.

There is a story of a man who was out in public pillory because he couldn't pay a small debt. An anxious friend came to inquire about the circumstances and then exclaimed argumentatively:

"Why goodness gracious, man, they can't put you in the pillory, just for debt!"

"Perfnaps not," replied the victim of mistaken justice; "but here I am."

The seemingly impossible often comes true. If a man should tell his friends that he was dying of indigestion many of them would exclaim: "Why, man, indigestion the most may for every form of female components."

"Pavorite Prescription" for women is unquestionably the most perfect and successful remedy for every form of female com-

isn't a killing complaint!" His all-sufficient tanswer would be "It is killing me."

The fact is, indigestion in the full sense of the term is the most killing of all complaints. The worst diseases that flesh is helr to, have their beginnings in bad digestion. People who die of wasting ill-nesses and blood diseases are simply starved to death because the stomach and blood-making glands don't furnish sufficient nourishment to feed the constitution. Most of the people who die of consumption die because their lungs san't get enough good blood from the digestive cramis.

When these fail to do their work and a torpid liver allows the circulation to become choked un with bilious noisons, the whole system is laid wide open to every form of malignant and fatal malady.

People by hundreds write to Dr. Pierce at Buffalo, N. Y., every day declaring that his "Golden Medical Discovery" has circed them of some dangerous illness that the doctors could not master; yet all that this "Discovery" does is to enable the discitive and nutritive organism to make good blood, and gives the liver power to keep it pure. Nature does the rest.

Nature does the rest.

Nature does the rest.

An instance of how the digestive organism affects the whole body for good or cvil is shown in the case of a little girl living in Chase, (Chase county) Nebraska. Her father, Mr. C. C. Rummell, in a grateful letter to Dr. Pierce, writes: "In February, 1895, our little girl had a severe attack of grip. It settled in her stomach, causing inflammation of stomach and bowels. We had two doctors who gave up the case; the third relieved her; but Sentember found ill be established at Little y-ton oll mill at Opelika. 1895, our little gn. 1895, our little

isn't a killing complaint!" His all-sufficient plaint ever invented. Taken in conjunction answer would be "It is killing me." with the "Golden Medical Discovery" the The fact is, indigestion in the full sense two constitute a complete and effective

two constitute a complete and effective course of treatment for weak, nervous, overwrought women.

Any one writing to Dr. Pierce will receive careful professional consideration and a letter of sensible advice with suggestions for home treatment free of charge. If the case should have particularly complicated features, it will be considered in consultation with the most eminent specialists on Dr. Pierce's great thousand-page illustrated book, the "Common Scase Medical Adviser," will be sent free of charge on receipt of twenty-one 1-cent Stamps to pay the cost of mailing only; or for thirty-one stamps a heavier cicth-

for thirty-one stamps a heavier cichbound copy. Address, World's Dispensary Medical Association, Buffsto, N. Y.
